

Issues to Raise about Payday Lending When Talking to your Congress Members

Explain how payday lenders have hurt your family.

- I got trapped in a cycle of debt, having to take out a second and third loan to pay off the first
- The fees and interest rates were too high and unfair for the small amount of the loan
- The lender took their repayment right out of my bank account before I could pay my (rent, car payment, groceries)

The federal government should stop payday lenders from abusing Maine people.

Please do not gut the Consumer Finance Protection Bureau and give a free pass to payday lenders

Oppose the CHOICE Act.
